**ELSC Seminar: Dr. Claudia Clopath - Thu. 01/12 at 17:00.**

"Emergence of Functional Subnetworks" My research interests are in the field of neuroscience, especially insofar as it addresses the questions of learning and memory. I use mathematical and computational tools to model synaptic plasticity, and to study its functional implications in artificial neural networks.

**ELSC Seminar: Dr. Ori Katz Thu. 10/11 at 17:00**

Imaging with Scattered Light: looking through the 'fog': Scattering of light in complex samples such as biological tissue renders most samples opaque to conventional optical imaging techniques, limiting the penetration depth of even the state of the art microscopy techniques to a fraction of a millimeter in tissue. However, although random...
