Foster + Partners, led by Founder and Chairman Norman Foster, is based in London with offices worldwide. The practice has pioneered a sustainable approach to architecture through a wide range of award-winning work, from urban master plans to product design, including the world's largest airport terminal in Beijing, the German Parliament in Berlin, The Great Court at London's British Museum, and the Smithsonian Institution in Washington DC.

The Jerusalem Brain Sciences Building will be the first project by Foster + Partners in Israel, and promises to set new standards in quality, reflecting ELSC's interactive, interdisciplinary approach to brain research and raising it to a new level.
It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

**ELSC Friends**

**Studying at ELSC**

Our Int'l Ph.D. program provides outstanding students with top-notch courses in computational neuroscience.

**The Building**

The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.

**ELSC Media Channel**

Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
