Fellowships for graduate and post-doctoral research in theoretical neuroscience at the Hebrew University

Max Planck Junior Fellows
The Max Planck Junior Fellowship is a non-tenure track position. Recipients of this fellowship will be exceptionally talented researchers at the postdoctoral level. Each fellow will join one of the labs of the center, but will work largely independently with his/her own research budget and possibly research assistants / PhD students. The term of the appointment is for 3-5 years. Fellows will spend part of their time at the HU and part at the Max Planck Institute, which will guarantee the creation of concrete and visible joint research programs. A joint selection committee will select the fellows.

Applications
Applications for Max Planck Junior Fellows should be sent to both Prof. Alex Borst (aborst@neuro.mpg.de) and Prof. Idan Segev (idan@lobster.ls.huji.ac.il).
