Tenure Track Positions: NON-HUMAN PRIMATE RESEARCH

The mission of the Edmond and Lily Safra Center for Brain Sciences (ELSC) is to develop a thriving interface between theoretical and experimental neuroscience across levels (cognition, behavior, neuronal circuits, cellular, and genetics-molecular), paving the way to innovative brain repair. ELSC has on-going call for candidates from all the above disciplines.

This is a special call, open only to applicants who have excellent record in non-human primates research, who practice NHP experimental work, and have solid understanding of Theoretical, Computational and Engineering tools. Combining basic and Translational-medical application is specifically strong advantage.

Candidates may apply for a junior Tenure track position (Assistant professor) and up to a full professor position.

Why ELSC?

- State of the art non-human primate facility, in the new home of ELSC (under construction).
- State-of-the-art large laboratories and core facilities such as MRI, highly advances animal facility, Surgical suit, virus facilities, teams for medical care and technical assistance.
- ELSC new building is designed by the renowned Foster+Partners architects. Planned inauguration date: October-2016
- Generous start-up funding, as well as assistance with obtaining additional start-up funds from the Israeli government;
- A distinguished existing faculty with varied research interests as well as top Ph.D. students from ELSC Special Interdisciplinary PhD program in computational neuroscience.
- On-campus proximity to related disciplines, such as engineering, physics, and life sciences;
- Enriched academic milieu that includes weekly seminars, guest lectures, social events and annual conferences that bring together world-renowned experts;
- Established ties and frequent collaborations with world renowned labs and research centers
- Efficient administrative support, provided by a dedicated staff;

Applications will be reviewed throughout the year

A complete application package includes a letter of intent, curriculum vitae; an outline of future research
and scientific vision including a brief description of the facilities required to carry out the research plan, three to five publications (in PDF format) that best represent the candidate's work and teaching direction, the names of three individuals willing to provide letters of reference.

All applications materials must be submitted on-line

? Please make sure to specify ?NON HUMAN PRIMATE CALL? on your letter of intent

For further information please contact Ms. Idit Nusilevitz: brain@elsc.huji.ac.il; Phone: +972.2.65 85375
