Heller Lecture - Prof. Edward M. Callaway

April 14, 2015

On the topic of "Molecular, Genetic and Viral Approaches for Linking Neural Circuit Structure and Function"

Heller Lecture Series in Computational Neuroscience

Prof. Edward M. Callaway
Systems Neurobiology Laboratories, The Salk Institute for Biological Studies, La Jolla, California, USA

On the topic of "Molecular, Genetic and Viral Approaches for Linking Neural Circuit Structure and Function"

The lecture will be held on Tuesday, April 14, 2015
Location: ELSC, Silverman Bldg., 3rd wing, 6th floor

View on YouTube
It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

Our Int'l Ph.D. program provides outstanding students with top-notch courses in computational neuroscience.

The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.

Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
