Article of the Month

March 2017 - Deouell's lab
Neural mechanisms of rhythm-based temporal prediction: Delta phase-locking reflects temporal predictability but not rhythmic entrainment
Read More

February 2017 - Segev's lab
Unique membrane properties and enhanced signal processing in human neocortical neurons
Read More

February 2017 - Ahissar's lab
Dyslexics? faster decay of implicit memory for sounds and words is manifested in their shorter neural adaptation
Abstract:
Read More

January 2017 - Burak's lab
Shaping Neural Circuits by High Order Synaptic Interactions - Neta Ravid Tenenbaum and Yoram Burak - PLoS Computational Biology, 2016
Read More
**Article of the Month January 2017 - Mizrahi's lab**
Distinct Spatiotemporal Response Properties of Excitatory Versus Inhibitory Neurons in the Mouse Auditory Cortex Ido Maor, Amos Shalev, and Adi Mizrahi
[Read More]

**Article of the Month April 2016**
The researchers mapped the cortical projections from various sensory, motor, and executive cortices to the claustrum of the mouse
[Read More]

**Article of the Month May-June 2016**
Mallet et al. (2016) show that ?arkypallidal?? neurons provide a Stop signal, suppressing the development of Go-related striatal activity
[Read More]

**Article of the Month June-July 2016**
In the present publication, Aviv Mezer and Shai Berman, together with researchers from Stanford University and the University of Washington, test the ability to quantify PD and separate it from the instrumental bias.
[Read More]

**Article of the Month July 2016**
Multisensory processes are fundamental in perception, cognition, learning, and behavior. How do stimuli of different sensory modalities are integrated?
[Read More]

**Article of the Month August 2016**
This Article of the month: Evaluating Quantitative Proton-Density-Mapping Methods is the work of Aviv Mezer, Ariel Rokem, Shai Berman, Trevor Hastie, and Brian A. Wandell.
[Read More]
Article of the Month September 2016
This Article of the Month "KV7/M channels as targets for lipopolysaccharide-induced inflammatory neuronal hyperexcitability" is the work of Arik Tzour, Hodaya Leibovich, Omer Barkai, Yoav Biala1, Shaya Lev, Yoel Yaari, Alexander M. Binshtok.
Read More

Article of the Month October 2016
Safra Neuron Screen: Design and Fabrication  Abstract:
Read More

Article of the Month November 2016
Read More

Article of the Month December 2016
The Impact of Structural Heterogeneity on Excitation-Inhibition Balance in Cortical Networks Itamar D. Landau, Robert Egger, Vincent J. Dercksen, Marcel Oberlaender, Haim Sompolinsky
Read More

Article of the Month December 2016
Pallidal spiking activity reflects learning dynamics and predicts performance  Eitan Schechtman, Maria Imelda Noblejas, Aviv D. Mizrahib, Omer Dauber, Hagai Bergman
Read More
