ELSC-ICNC Seminars 2012-2013

June 20, 2013
ELSC-ICNC Seminar: Orly Goldwasser
On the topic of: "Ancient Egyptian Hieroglyphs as a Window into the Mind"
Read More

June 13, 2013
ELSC-ICNC Seminar: Ronen Segev
On the topic of: "Visual Search in the Archer Fish"
Read More

June 6, 2013
ELSC-ICNC Seminar: Rafi Malach
On the topic of: "Mapping a-priory biases in the human cerebral cortex"
Read More

June 2, 2013
ELSC-ICNC Seminar: Carla Shatz
On the topic of: "Brain Waves and Synapse Remodeling in the Developing Visual System"
Read More

May 30, 2013
ELSC-ICNC Seminar: William Bialek
On the topic of: "Entropy, information, and the brain"
Read More
May 23, 2013
ELSC-ICNC Seminar: Hanoch Kaphzan
On the topic of: "Novel homeostatic mechanisms in a neurodevelopmental mice model of Angelman syndrome"
Read More

May 9, 2013
ELSC-ICNC Seminar: Sagiv Shifman
On the topic of: "Autism: a complex biological story"
Read More

May 2, 2013
ELSC-ICNC Seminar: Gilad Barnea
On the topic of: "The neural circuitry underlying olfactory perception"
Read More

April 25, 2013
ELSC-ICNC Seminar: Shai Shoham
On the topic of: "Applied population neuronal interfaces: some new methods and results"
Read More

April 18, 2013
ELSC-ICNC Seminar: Daphna Joel
On the topic of: "Are there male brains and female brains?"
Read More

April 11, 2013
ELSC-ICNC Seminar: Josef Parvizi
On the topic of: "Re-examining category specific representations in the human visual system by intracranial recordings and electrical brain stimulation in conscious human subjects"
Read More
March 14, 2013
ELSC-ICNC Seminar: Inbal Goshen
On the topic of: "Illuminating behavior: An optogenetic approach to study the role of neurons and glia in normal behavior and neuropsychiatric disorders"
Read More

March 7, 2013
ELSC-ICNC Seminar: Edwin Rubel
On the topic of: "Regulation of Dendritic Patterning By Synaptic Activity In Binaural Brainstem Auditory Neurons"
Read More

February 28, 2013
ELSC-ICNC Seminar: Baruch Minke
On the topic of: TRP channels: what are they, how they are activated and why are they important for understanding brain damage
Read More

January 24, 2013
ELSC-ICNC Seminar: Rava da Silveira
On the topic of: The Orchestral Brain: High-Fidelity Coding With Correlated Neurons
Read More

January 17, 2013
ELSC-ICNC Seminar: Dov Sagi
On the topic of: "Generalized perceptual learning in the absence of sensory adaptation"
Read More

January 9, 2013
ELSC-ICNC Seminar: Arthur Konnerth
On the topic of: "Abnormal activity in cortical and hippocampal circuits in Alzheimer's disease"
Read More
January 3, 2013
ELSC-ICNC Seminar: Tamir Ben-Hur
On the topic of: Cell therapy for multiple sclerosis
Read More

December 27, 2012
ELSC-ICNC Seminar: Gal Richter-Levin
On the topic of: Stress and Amygdala Modulation of Hippocampal Plasticity ? Potential Relevance to PTSD
Read More

December 20, 2012
ELSC-ICNC Seminar: Daniela Kaufer
On the topic of: "The role of adult hippocampal stem cells in stress, fear and emotional memory"
Read More

December 13, 2012
ELSC-ICNC Seminar: Christian Broberger
On the topic of: TIDAL WAVES: Neural Network Mechanisms in the Control of Lactation and Neuroendocrine Secretion
Read More

December 6, 2012
ELSC-ICNC Seminar: Hedva Spitzer
On the topic of: "Visual adaptation mechanisms of the first and second orders and their algorithmic applications to image processing (including medical images)"
Read More

November 22, 2012
ELSC-ICNC Seminar: Stephen J. Eglen
On the topic of: "Theoretical models of the development of the nervous system"
Read More
November 8, 2012

ELSC-ICNC Seminar: Alex Binshtok [25]
On the topic of: "Follow the Pain: Somatotopically-Based Approach to Study Mechanisms of Detection, Transmission and Perpetuation of Pain"

Read More [25]

November 1, 2012

ELSC-ICNC Seminar: Ami Citri [26]
On the topic of: "Transcription networks provide a window into the neural circuitry of addiction"

Read More [26]

October 25, 2012

ELSC-ICNC Seminar: Yoel Rak [27]

Read More [27]

It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

The Building
The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.

Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
