ELSC Seminars 2013-2014

Back to seminars page [1]

June 19, 2014
ELSC Seminar: Carl Petersen [2]
On the topic of: ?Synaptic mechanisms of sensory perception?
Read More [2]

June 12, 2014
ELSC Seminar: Yves Fregnac [3]
On the topic of: Hidden complexity from within and beyond the classical V1 receptive field
Read More [3]

May 22, 2014
On the topic of: The brain as a model of the world
Read More [4]

May 15, 2014
ELSC Seminar: Eve Marder [5]
On the topic of: Homeostatic regulation of intrinsic excitability and circuit function
Read More [5]

May 8, 2014
On the topic of: Effects of Alzheimer's Disease neuropathology on neocortical cellular and network function
Read More [6]
May 1, 2014
**ELSC Seminar: Hagai Bergman**
On the topic of: The one who does not learn from history is bound to live through it again? the lesson of frontal lobotomy
**Read More**

March 27, 2014
**ELSC Seminar: Dino Levy**
On the topic of: Common currency in the brain? A neuroeconomic perspective
**Read More**

March 20, 2014
**ELSC Seminar: Yoram Eshet**
On the topic of: "A Shattered World: Brain injury, trauma and memory"
**Read More**

March 13, 2014
**ELSC Seminar: Jochen Triesch**
On the topic of: "Efficient Coding in Active Perception"
**Read More**

March 6, 2014
**ELSC Seminar: Eshel Ben-Jacob**
On the topic of: Chamber of Hope: Exosomes and Hyperbaric Oxygen for Brain Repair
**Read More**

February 27, 2014
**ELSC Seminar: Stanislas Dehaene**
On the topic of: "Advances in understanding the signatures of consciousness"
**Read More**
February 20, 2014
ELSC Seminar: Hillel Aviezer
On the topic of: "Beyond pleasure and pain: Taking a closer look at real-life intense emotional expressions"
Read More

January 16, 2014
ELSC Seminar: Ron Meir
On the topic of: "The neuron's response at extended timescales: memory, noise and stability"
Read More

January 9, 2014
ELSC Seminar: Josh Goldberg
On the topic of: "up-regulation of sodium currents boosts cortical input to striatal cholinergic interneurons in mouse models of Huntington's disease"
Read More

January 2, 2014
ELSC Seminar: Ifat Levy
On the topic of: "Uncertainty and its effect on human brain and behavior"
Read More

December 26, 2013
ELSC Seminar: David Golomb
On the topic of: "Dynamics of whiskers and motor plant affect active tactile sensation"
Read More

December 19, 2013
ELSC Seminar: Hermona Soreq
On the topic of: "The promises and challenges of neuronal microRNAs"
Read More

December 5, 2013
ELSC Seminar: Eran Stark
On the topic of: "Mechanisms of local circuit dynamics in freely moving animals"
November 28, 2013
**ELSC Seminar: Ian Duguid**
On the topic of: "Behavioural state differentially regulates input sensitivity and firing rates of motor cortex pyramidal neurons"

November 21, 2013
**ELSC Seminar: Yuval Noah Harari**
On the topic of: "Brain vs. mind: A historical perspective"

November 14, 2013
**ELSC Seminar: Shimon Marom**
On the topic of: "Interpretations of response variation in neural systems"

November 7, 2013
**The Daniel Amit Lecture 2013-2014**
The Annual Lecture in Computational Neuroscience in memory of the late Professor Daniel Amit will be given by Stefano Fusi

October 31, 2013
**ELSC Seminar: Dora Angelaki**
On the topic of: "Optimal integration of sensory evidence: Building blocks and canonical computations"

October 24, 2013
**ELSC Seminar: Noam Shemesh**
On the topic of: "Noninvasively Probing Complex Neural Tissue Micro-Architecture and Metabolic Confinements in-vivo"
October 17, 2013

**ELSC Seminar: Itzhak Fried**

On the topic of: "Memories and Volitions: Insights from single neuron recordings in the human brain"

**Read More**

---

It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

**ELSC Friends**

Our Int'l Ph.D. program provides outstanding students with top-notch courses in computational neuroscience.

**Studying at ELSC**

The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.

**The Building**

Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
