ELSC Seminars 2015-2016

Back to seminars page [1]

July 11, 2016
ELSC special seminar: Prof. Kalanit Grill-Spector, Mon. 11/7 17:00 [2]
On the topic of: Population receptive fields in high level visual areas and their role in attention and perception?
Read More [2]

June 16, 2016
ELSC seminar: Eilon Vaadia, Thu. 16/6 17:00 [3]
On the topic of: Learning in Brain Machine Interface?
Read More [3]

June 2, 2016
ELSC Seminar: Prof. Yaniv Assaf Thu. 02.06 17:00 [4]
On the topic of: The CONNECTOME: structure, function and evolution.
Read More [4]

April 7, 2016
ELSC seminar: Itamar Kahn Thu. 7/4, 17:00 [5]
On the topic of: Corticostriatal disruption in NF1 revealed by functional connectivity MRI in awake mice
Read More [5]

April 7, 2016
ELSC Special Seminar: Assaf Tal Sun. 17/4, 12:00 [6]
On the topic of: New Localization Schemes for Magnetic Resonance Spectroscopy
Read More [6]
March 31, 2016
ELSC Special Seminar: Amgad Droby Thu. 31/3, 10:00
On the topic of: "Quantitative MR methods for studying neuronal compartment damage in multiple sclerosis and as a framework for multi-centric studies."
Read More

March 17, 2016
ELSC Seminar: Yoram Ben-Shaul Thu. 17.3, 17:00
On the topic of: Encoding socially relevant information by the mouse brain system - the basics and a little beyond.
Read More

March 6, 2016
ELSC Special Seminar: Dr. Robert J Zatorre sun. 6.3, 17:00
On the topic of: "From Perception to Pleasure: Music and its neural substrates"
Read More

March 3, 2016
Elsc seminar: Prof. Ido Kanter
On the topic of: Low-firing rates, cortical oscillations and neuronal precision stem from neuronal plasticity: Experiment and theory
Read More

January 28, 2016
ELSC Special Seminar: Prof. Steven J. Schiff
On the topic of: "Unification of neuronal spikes, seizures, and spreading depression"
Read More

January 21, 2016
ELSC Seminar: Prof. Aaron Sloman
On the topic of: "Evolved and engineered information processing architectures for vision and language"
Read More
January 14, 2016
ELSC Seminar: Dr. Ayelet N. Landau
on the topic of: "Rhythmic motifs in cognition: the case of attentional sampling"
Read More

January 7, 2016
ELSC Seminar: Dr. Yossi Yovel
On the topic of: "From Sensory Perception to Foraging Decision Making, the Bat's Point of View?"
Read More

January 7, 2016
ELSC Seminar: Dr. Yossi Yovel
On the topic of: "From Sensory Perception to Foraging Decision Making, the Bat's Point of View?"
Read More

December 31, 2015
ELSC Seminar: Dr. Yaniv Ziv
On the topic of: "Days-scale hippocampal ensemble dynamics infer the temporal relationships between experienced events"
Read More

December 27, 2015
ELSC Special Seminar: Dr. Noam Ben-Eliezer
On the topic of: "Identification of pathological changes in normal-appearing white and gray matter of multiple sclerotic patients using a novel MRI mapping technique?"
Read More

December 10, 2015
ELSC Seminar: Prof. Menachem Hofnung.
On the topic of: "The Invisible Settlement: Integrating Palestinian Informers in Israel"
Read More
December 3, 2015
ELSC Seminar: Prof. Chaya Kalcheim
On the topic of “How do neural progenitors transit from peripheral to central nervous system during development?”
Read More

November 26, 2015
ELSC Seminar: Yonatan Kupchik
On the topic of “Novel insights into the roles of different nucleus accumbens projection neurons in addiction”
Read More

November 19, 2015
ELSC Seminar: Ofer Yizhar
On the topic of “Understanding the roles of amygdala-prefrontal connections through targeted optogenetic perturbation”
Read More

November 12, 2015
ELSC Seminar: Nathan Dascal
On the topic of “Regulation of GIRK channel by G proteins and lithium: a link between neuronal excitability and bipolar disorder?”
Read More

October 29, 2015
ELSC Seminar: Jason Christie
On the topic of “Compartmentalized signalling in the mouse cerebellum”
Read More
It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

Our Int'l Ph.D. program provides outstanding students with top-notch courses in computational neuroscience.

The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.

Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
