Visual Memory in Unilateral Spatial Neglect: Immediate Recall versus Delayed Recognition

By zroth
Created 11/25/2014

It is now widely accepted that deciphering the enigma of the brain is the most challenging intellectual endeavor of the 21st century, "The Century of the Brain" - Join our quest and become a friend of ELSC.

We are seeking talented and self-motivated candidates, who will devote themselves exclusively to research with the purpose of reaching scientific and professional independence

The Jerusalem Brain Sciences Building will provide a state-of-the-art research and teaching facility for the Edmond and Lily Safra Center for Brain Sciences.
Get into our media channel and investigate ELSC's latest videos: seminars, public lectures, courses and video articles.
