New Academic Positions at ELSC

With the newly established home for The Edmond and Lily Safra Center for Brain Sciences, we are looking for junior and mid-career neuroscientists who value excellence and aspire to establish active innovative and interdisciplinary research in neuroscience.

ELSC Graduate Program Registration

Welcome to the ELSC Graduate’s Registration Site.

In order to register for the ELSC Graduate’s Program, you must create a student account at the HUJI Studies Registration System (using Explorer).

1. Click here to create an account.

2. Once you have created an account, you will receive an email instructing you how to sign in and apply directly to the Graduates Program.
3. If you already have HUJI account, Click [here](#).

---

**Educational Projects**

One important component of ELSC’s vision is to maintain a dialogue between scientists and the general public. ELSC seeks to reach out to those who are interested in the impacts of brain sciences research and are directly influenced by it. By holding public lectures and hosting temporary exhibitions on the brain, and by reaching out to children and youth of different ages, the Edmond and Lily Safra Center for Brain Sciences renders brain research accessible to all who are interested.

**Educational Programs**
Twenty Fourth Year

- Ayelet Gertsovski
- Alex Kazakov
- Gal Vishne
- Hana Gerchikov
- Lea Cohen
- Lotem Elber
- Nir Ofir
- Noa Rahamim
- Stav Yardeni
- Tomer Barak
- Daniel Batyrev
- Ruoyi Cao

Travel Grants to ELSC retreat
Competitive Travel Grants for Advanced PhD Students

To present their work in

The 2016 ELSC Annual Retreat
January 24-26, Kibbutz Ein Gedi, Israel

ELSC is a multidisciplinary neuroscience center. Our retreat thus covers the whole spectrum of brain research, including computational, molecular, cognitive and systems neuroscience.

The ELSC retreat is an optimal venue for advanced PhD students to present their work and receive expert feedback. The program includes talks by our advanced graduate students, and plenary speakers Fred Wolf, Ilana Witten and Serge Domoulin.

This year, for the first time, ELSC offers competitive scholarships to support the travel and accommodation of 20 outstanding advanced international PhD students to present their work in our retreat.

Candidates are requested to send their CV, a letter of intent, and a recommendation letter to BRAIN@ELSC.hji.ac.il by November 1st. Awardees will be announced no later than November 15th.

Twenty Third Year

- Aharon Azulay
- Galya Arviv
- Carmel Auerbach Ash

Neuroscience postdoctoral program

Housing in HU

Edmond J. Safra Campus (Givat Ram Campus)

The Zweig Dormitories has 450 beds in 8 buildings. These rooms are for singles only, sharing 2 students in a room. Each building has kitchens, bathrooms and showers.

Useful Information

Visa to Israel

It is recommended that students planning to arrive in Israel for a post-doctoral internship acquire a multiple-entry A/2 student visa from the Israeli Consulate in their country of residence before arriving in Israel. This visa is generally issued for 12 months; thus students who are coming for the year are advised to obtain the visa close to their date of departure. If needed, the visa can be extended yearly until the end of the student's studies.
Our Int'l Ph.D. program provides outstanding students with top-notch courses in computational neuroscience.
