POSTDOCTORAL OPPORTUNITY in

Neurophysiology of Social Cognition

A postdoctoral position is available in the field of neurophysiology of social cognition under the supervision of Dr. David Omer. The Omer lab is using cutting edge wireless technologies to study the neural basis of behavior, in non-human-primates. The successful candidate will join projects focusing on how the the hippocampal formation enable us to navigate physical and social spaces around us.

Requirements:
Candidates must hold a PhD in Neurobiology or related disciplines (e.g. Physics, Chemistry, Computer sciences) and should have published experience in electrophysiology and/or behavior. Candidates should be proficient in English.

Further details:
Possible start of employment:
October 2020
For further information please contact David Omer:
